

Boeing 747-400F

Freighter specifications

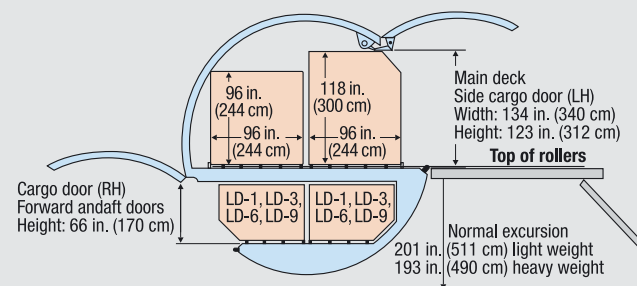

The 747-400F is the all-cargo transport member of the 747-400 family. With a maximum gross payload of 128,5 metric tonnes, this aircraft was designed as a freighter from the beginning. Flexibility in loading is one of its key components. With a large side cargo door and a unique nose door, the airplane can be loaded quickly and easily, whether the load is made up of standard containers and pallets, or oversized cargo.
